Purpose of development charges

Development charges assist in financing capital projects required to meet the increased need for services resulting from growth and development. Development charge funds may only be used for the purpose for which they are collected.

Background Study

The Development Charges Act, 1997 and Ontario Regulation 82/98 require that, prior to the passing of a by-law, a development charges background study be undertaken, with reference to:

- The forecasted amount, type, and location of future development
- The average service levels provided in the County over the 10-year period immediately preceding the preparation of the background study
- Capital cost calculations for each eligible development charge service
- An examination of the long-term capital and operating costs for the infrastructure required to service the forecasted development.

Hemson Consulting Ltd. prepared the Development Charges Background Study for the County dated September 2021. The study served as the basis for the development charge rates approved by County Council on November 23, 2021, through by-law No. 6930. Development charges came into effect on January 1, 2022.

Services covered

Development charges have been imposed for the following categories of County services in order to pay for the increased capital costs required as a result of increased needs for services arising from development:

- Long Term Care & Seniors Services
- Paramedic Services
- Waste Management
- Development Related Studies
- Transit
- Services Related to a Highway
 - a) Public Works
 - b) Roads and Related

Exemptions

A number of exemptions to the payment of development charges are established under the Development Charges Act, S.O. 1997 and By-law No. 6930. These include hospitals, government agencies, schools, colleges and universities, places of worship, farm buildings, and certain residential expansions.

Redevelopment

A credit will be provided against development charges owing where buildings or structures have been demolished to permit the redevelopment of the property.

The eligibility for demolition credits is restricted to demolitions that occur within five years of the redevelopment of the property.

Unpaid charges to be added to tax roll

Where a development charge or any part of it remains unpaid after it is payable, the amount unpaid will be added to the tax roll and will be collected in the same manner as taxes.
